1. Begin at the starting row based on the table above.
2. Move down the correct column until you reach a number that corresponds to a number on the keypad. If you pass row 9, continue at row 1.
3. Place the piece based on the following:
 - a. If placing the piece in this location would result in a tic-tac-toe, you press PASS.
 - b. Otherwise, place the piece by pressing the location on the keypad and move to the next row in the chart.
4. If you have pressed PASS twice, a new piece will be displayed and you must also move to the next row in the chart.
5. Upon receiving a strike, move back to the starting row.
