

## On the Subject of Splendidly Slashing

### Simon Shrieks

*Try to say the above title three times fast.*

Translate each flashing color to a number 0-6 by counting clockwise from the color pointed to by the arrow. Start in the square corresponding to the first flashing color. Move to adjacent squares according to arrows for each subsequent flashing color, or stay if there is no such arrow. If the serial number contains a vowel, use the top answer, otherwise the bottom.
