

On the Subject of Complicated Wires

These wires aren't like the others. Some have stripes! That makes them completely different. The good news is that we've found a concise set of instructions on what to do about it! Maybe too concise...

See Appendix B for battery identification reference.

See Appendix C for port identification reference.

- Look at each wire: there is an LED above the wire and a space for a "★" symbol below the wire.
- For **each** wire/LED/symbol combination, use the table below to decide whether or not to cut the wire.
- Each wire may be striped with multiple colors.

	LED																				
<table><tr><td></td><td></td><td>red</td></tr><tr><td></td><td>✓</td><td>even</td></tr><tr><td>blue</td><td>even</td><td>even</td></tr></table>			red		✓	even	blue	even	even	<table><tr><td></td><td></td><td>red</td></tr><tr><td></td><td>X</td><td>≥2B</td></tr><tr><td>blue</td><td>P</td><td>even</td></tr></table>					red		X	≥2B	blue	P	even
		red																			
	✓	even																			
blue	even	even																			
		red																			
	X	≥2B																			
blue	P	even																			
Star	LED & Star																				
<table><tr><td></td><td></td><td>red</td></tr><tr><td></td><td>✓</td><td>✓</td></tr><tr><td>blue</td><td>X</td><td>P</td></tr></table>			red		✓	✓	blue	X	P	<table><tr><td></td><td></td><td>red</td></tr><tr><td></td><td>≥2B</td><td>≥2B</td></tr><tr><td>blue</td><td>P</td><td>X</td></tr></table>					red		≥2B	≥2B	blue	P	X
		red																			
	✓	✓																			
blue	X	P																			
		red																			
	≥2B	≥2B																			
blue	P	X																			

- ✓ = cut the wire.
- X = don't cut the wire.
- ≥2B = cut the wire if there are at least 2 batteries.
- **even** = cut the wire if the last digit of the serial number is even.
- P = cut the wire if there is a parallel port.
