

On the Subject of X-Rays*I can see right through you.*

- The module scans three different symbols from top to bottom, bottom to top, or alternating back and forth.
- In the big table, find the intersection of the row and column headed by two of the symbols.
- Stay there or move to an adjacent symbol as indicated by the third symbol and the small table above. The center of the table means stay.
- Push the button with the symbol you land on.
