

On the Subject of Simon Squawks

Meet Simon's needy second cousin. He's also called Simon.

- The module shows eight buttons of different colours; blue, cyan, green, orange, purple, red, white & yellow.
- On activation, a sequence of two colours will flash.
- Use the first answer in the column of the first flash and the row of the second flash to determine the first response.
- Use the second answer in the column of the second flash and the row of the first flash to determine the second response.
- Enter the two colour response within 30 seconds to deactivate the module.
- Entering an incorrect colour will cause a strike and immediately deactivate the module.

	Blue		Cyan		Green		Orange		Purple		Red		White		Yellow
