

On the Subject of Harmony Sequence

A harmony is to the musician's ears as a steak is to the gourmet.

Harmony Sequence is a module where you have to listen to a sequence of notes and arrange them in the correct order.

How it works

- Press and hold the red button to hear the sequence.
- Press the buttons in order from lowest to highest note.
- If you press a wrong button, the module will cause a strike and reset the current stage.
- Complete all 4 stages to hear the harmony and solve the module.
