

## On the Subject of The Plunger Button

*A big square button saying "PUSH ME!"? What could possibly go wrong?*

- The module consists of a large red button with the words, "PUSH ME!" in white text.
- Count up the number of solved modules on the bomb and refer to the table below to determine when to start holding and when to release the button.
- The numbers in the table refer to the last digit of the bomb timer. "Lit" refers to lit indicators. "Unlit" refers to unlit indicators.
- Pressing or releasing at the wrong time will cause a strike.
