

In reference pertaining to the particulars specifically constrained to that of one pluggable minuscule explosive element referencing that which is spoken of herein and shall hitherto be known as The Article

All conditions are final, subject to due diligence, terms & conditions and procurement of a section 27 correspondence contingent.

- As laid out in statute 47A with reference to the construct of the article, a triumvirate of interactive nodules will feature.
- The sanctions laid out in the conditions stated below will assist in disposing the article of its potentially destructive powers.
- Failing to act in accordance with the written instruction defined herein will cause a rupture in the interior chamber of the article, of which too many can cause premature detonation.
- Ergo:
- In the event that the blue and yellow combined super-watted diode emitter didn't not flash a number of times no fewer than the sum of a gross evenly shared by a dozen and reduced by the highest single digit prime number, don't not press an odd digit that is neither composite or prime.
- Conversely, if there isn't not no evidence of a double reoccurrence or lower yield of the aforementioned variable colour having had its second combinant component removed, don't press any of the corresponding numbers that align with variables pertaining to digits that may be prime, or greater than zero and less than two.
- Conversely, don't not press the number that is equal to $\lfloor 10^9 \cdot \pi \rfloor - 10 \cdot \lfloor 10^8 \cdot \pi \rfloor$.
