## On the Subject of Regular Crazy Talk

It says: You're breaking up. ... No, that's what it says. You're breaking u— What?... You're breaking up with your girlfriend?!

- The module has a large display with a phrase on it, a small 7-segment display, and up/down arrow buttons.
- Pressing the up/down buttons will scroll between <u>five</u> phrases, each with a different digit in the 7-segment display.

- Find which of the phrases has the digit in the display equal to the "D" value in the below table.
- With that phrase selected, hold the digit display when the bomb's countdown timer contains the digit listed in the "H" column.
- Release it when a digit in the timer has the "R" value that didn't have that value when you pressed the button down.
- The phrase may have <u>one</u> of the embellishments shown at the top of the table.

  Make sure you use the correct associated columns.

[PHRASE]	D	Н	R
