# On the Subject of Not Pressing X

Due to the fact that gamepads and controllers exist, we unfortunately had to settle with "Press 'X'".

Lit CAR: Press X any time.

Unlit BOB: Press X when last digit in timer = first digit in serial number.

Unlit FRQ & ≥ 3 batteries: Press X when the seconds digits in timer = prime number − 3.

Lit NSA & 3 letters in serial number & 3 batteries: Press Y when the seconds digits in the timer = prime number + 6.

Otherwise: Press X when last digit in timer = last digit in serial number.

Prime numbers: 2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47, 53, 59, 61, 67, 71, 73, 79, 83, 89, and 97.
